**Our Men's  
Match Play Champion,  
who defeated Kevin  
King after 19 holes!!!**

The coronavirus continues to wreak havoc with our events! We are sad to say that we will have to cancel the Taste of Spain this August due to the county health restrictions. However, we are doing our best to provide an excellent dining experience in our outdoor seating with new umbrellas and shading during this warm weather.

Your safety continues to be our highest priority. We are replacing linen every time a table is used, and we are sanitizing consistently to provide protection for our guests.

We do have three new staff members to introduce if you haven't met them already. Rachel Achzier and Erica Stephan are our two new beverage cart attendants and Jessica Silverthorn is a new restaurant server. Introduce yourself and welcome them to the Steele Canyon family.

With our special events activity quiet right now, it's a great time to try out some new beverage options. On a trial basis, we have added Cutwater Spirits to our selection of drinks. I will soon also be adding Tequila Paloma, Tequila Margarita and Vodka Mule. Why not give them a try? I welcome your feedback on these new products. I would also like to hear your recommendations on other flavors and beverages that you may have tried in the past. Anyone interested in Hecho Tequila Soda poured over ice with a lime wedge?

The Club Championship will be August 15 & 16. Stop by for some Street Tacos that we will be selling outside. The meal comes with 3 tacos of your choice (Carne, Pollo or Carnitas) for \$12 includes chips and salsa and a fountain drink. We'll start this event on Friday, August 14 and the Member Event Card will be good for all 3 days. We hope you join us for some tasty tacos in our outside dining area.

### **GOLF COURSE MAINTENANCE**

After we got the new water pump installed on Vineyard 9 lake last month a separate pump on Vineyard 1 went down. This setback was noticeable as the golf course got thirsty for a bit and we worked to get it fixed as quickly as possible. We were recently able to get both pumps up and running and we are now transferring enough water up to the irrigation lake on Canyon 8 to keep up with our water usage. With water now being available we did a fertilizer application to help green up the course and get the Bermuda grass to start filling in the thin spots. We also sprayed another application of wetting agent to help retain the moisture and added some iron in to the mix to speed up the recovery process. Thank you for your patience and understanding with the time it has taken to get the course back to the playing performance everyone has come to expect and love.

The local wildlife has been active recently. You may have noticed a beautiful doe and young buck over on Ranch, the family of ten turkeys (as of Wednesday) wandering thru the Vineyard course, and the hawk that has been hunting and swooping by the driving range. It is a unique and entertaining aspect of our rural and remote course, keep your eyes open for them and we always appreciate you sharing your fun photos on social media or even just with us at the Clubhouse.
